### THE WORK

#### What you would teach

- CSEC across 21 subjects: mathematics, sciences, business, humanities, languages.

- SAT and ACT math, reading, and writing for students applying overseas.
- Primary Grade 1 through 6, including CPEA preparation.
- Select first-year tertiary subjects where you have strong academic standing.

#### What it would look like

- **You set your availability.** Pick the hours that fit around classes and exams.
- **You accept the sessions you want.** No mandatory minimum, no quota.
- **Group sessions of up to 4 students.** Multiplies your hourly take vs. one-on-one.
- **The platform handles the rest.** Scheduling, payments, classroom tools, AI co-pilots, materials. You teach.
- **Sessions are online.** No commuting, no parents in the room, no chasing payment.

### WHAT YOU WOULD ACTUALLY MAKE

Mixed in-person standard and online sessions. CSEC Secondary tier; group of 3 unless noted. Independent contractor pay before tax.

#### LIGHT LOAD

#### STEADY LOAD

**EC\$3,772** ~ US\$1,396

~ 20 hrs / week. Mixed CSEC, SAT online, and in-person CSEC sessions across the month.

### WHY THIS FITS UWI STUDENTS

#### The fit

- **Real teaching experience.** Something concrete on a CV, not another internship of fetching coffee.
- **Income that flexes with your semester.** Light during exam weeks. Heavier over the summer or break.
- **You teach students who look like you.** Caribbean students preparing for the same exams you sat. The fit is natural.
- **It travels.** Sessions are online, so the work follows you between campus, home, and any internship.
